

Trans4mind Corporate

Unlocking Mental Wealth. Activating Self-Leadership.

The Premium Express Option for Business Leaders

Trans4mind Training is an online platform that brings out the potential of every single person in your company to do a better job.

Through the use of our unique interactive video workshops the people in your company learn how to...

- **Improve efficiency and reduce stress**
- **Increase motivation and engagement**
- **Work together in a more cohesive team**

Imagine what this would do to improve your company!

A business leader can evaluate these benefits by using our online life assessment to select the most appropriate workshop for them - choosing from our curriculum of 29 key life challenge workshops.

Then, based on insights gained from the workshop, he or she creates a single practical and concrete step to improve their life and their work, and then implements it to complete the workshop.

As they do this they receive one-to-one support from Wallace Huey, Founder of Trans4mind Training.
